"Under the circumstances it is not at all strange that there is an aversion to the mingling of the children of the two reces. And therefore Californie has decreed that, whenever it is so desired, the least school authorities may provide separate schools for these Japanese children, in which they shall be taught as Caucasian children are, and by equally capable teachers.

"The treaty, as I read it, does not require that the Japanese shall be put in classes with our children. To give them as good school facilities more than complies with the treaty. Therefore, it would appear that San Francisco, in providing separate schools for the Japanese, is adhering strictly within the letter and spirit of the have of this Siale, and is in no way acting contrary to the treaty with Japan.

"The State of California, a covereign State of the United States of America, has no quarrel with the Government of either Japan or China. On the contrary, California has the greatest respect for these two countries, and deprecates equally any indignities which may be put upon Americans in Japan or China, or upon Japanese or Chinese in this country."
